## **Service User Report Quarter 1 2014/15**

**Author: Amanda Ware**

**Documents Reference: 11/14/2578**

**Last Updated: 15/07/2014**

## 1.1 Introduction

This report will cover fiscal years 2013/14 and 2014/15, specifically looking at quarter 1 of 2014/15. It will begin by analysing the data that has been collated by Moray Alcohol and Drug Partnership (MADP) services who, along with the service users are using the Alcohol and Drug Outcome Star to measure the service user's progress through their personal recovery journey.

It will also detail the number of people being referred into the MADP Services and those accessing the MADP services during fiscal years 2013/14 and 2014/15. This will include a break down and analysis of service user's ethnicity, age, the type of substance they misuse as well as the numbers of service users who have contact with children.

## 1.2 Method

The data for this report has been collated either directly from MADP Services or from the Service Reporting Sheet that is completed by the Service User and Assessor at Assessment or at Review with the key worker.

The following MADP services have contributed to this report:

- Moray Drug and Alcohol Team – NHS
- Moray Social Work Addiction Team
- Studio 8 (Turning Point Scotland)

It should be noted that no change required means that the service user has scored 10 on that point of the Alcohol and Drug Outcome Star showing that they can manage without help from the service.

- During quarter 1 of 2014/15 14 people were reviewed as having 2 or more Alcohol and Drug Outcomes Stars.
- Community was the area where most service users had made progress during quarter 1; this is the same as in quarter 1 of 2013/14.
- 28.6% of clients reviewed had made progress with their alcohol use while 28.6% did not require any help with their alcohol use.
- 14.3% had made progress with their drug use during quarter 1 of 2014/15 while 50% did not require any help with Drug misuse.
- The area in which service user reported the largest decline was in Family and Relationships, with 42.9% of service users reporting a decline in this area of their life. This too is very similar to quarter 1 of 2013/14.
- Perhaps unsurprising Offending was the area in which the highest number of service users reported needing no help.

## 2.2 Service User Data

	Q1	Q2	Q3	Q4	Q1
Number of Clients Assessed in MADP Services	66	71	69	83	82
Number of clients closed to MADP Services	51	39	19	68	35
Number of active clients engaged in MADP Services	423	427	407	422	412

- There has been a very slight decrease in the number of clients being assessed in quarter 1 compared with the previous quarter, however there has been an increase when compared with the same quarter of 2013/14.
- The number of clients who were closed to MADP services in quarter 1 has dropped by almost half when compared to the previous quarter. This could be due to two full time posts being discontinued in the MIDS Social Work Team during quarter 4 of 2013/14 making that figure unusually high.
- The number of active clients has declined slightly when compared to the previous quarter and the same quarter in 2013/14.

- The male to female percentage ratio in quarter 1 of this year is up by one percentage point from the previous quarter from 60.9% (257) to 61.2% (252) males and down from 39.1% (165) to 38.8% (160) females.
- The percentage ratio for quarter 1 201/14 is very similar to that of quarter 1 2014/15.

- The age bracket with the highest number of service users is 22-35; this has remained consistent throughout the past year and a half.
- There is a major cluster around the 22-45 age brackets of those engaged in MADP services, with 73.5% of all clients falling into this age grouping.
- There has been a further rise in the number of 46-55 year olds accessing MADP services during the reporting quarter, the highest since reporting began in 2012/13.
- There was 1 person aged over 75 engaging with MADP services in quarter 1.

	Q1	Q2	Q3	Q4	Q1
Alcohol	196	194	179	166	178
Drugs	179	199	190	244	210
Both	48	34	38	12	24

- The number of Service Users seeking help for Alcohol misuse has risen slightly to 178 compared to the previous quarter; however it has dropped by 18 people when compared to quarter 1 of 2013/14. 43.2% of all Service Users were accessing services due to an issue with alcohol.
- Those seeking help with drug misuse account for 51% of all clients in quarter 1; the number of service users seeking help for Drug misuse has declined during quarter 1 of 2014/15 compared to the previous quarter; although it has increased when compared to the same quarter of 2013/14.
- The percentage of those who are engaged in MADP services due to an issue with both drug and alcohol misuse has increased this quarter to 5.8% of all service users, which is a drop when compared to 2.8% in the previous quarter. The number of people seeking help for both drug and alcohol issues has dropped by half when and the same quarter in 2013/14.

	Q1	Q2	Q3	Q4	Q1
White Scottish	366	367	342	354	344
White British	44	47	55	54	60
White Other	11	10	9	13	7
White Irish	0	0	0	0	0
Black Other	1	2	1	1	1
Caribbean	0	0	0	0	0
Asian Other	2	1	0	0	0

- The vast majority of service users are White Scottish, this ethnicity accounts for 83.5% of all service users in quarter 1 of 2014/15.
- The number of White British people in MADP services has risen steadily throughout the fiscal year to 60 in the reporting quarter. This ethnicity accounts for 14.6% of all service users.
- The number of people who identified themselves as White Other has dropped back down when comparing the reporting quarter with the previous quarter, the majority of the White Other service users are Eastern European.
- During quarter 1 of 2014/15 there was one person who described their ethnicity as Black Other.

- During quarter 1 the number of people in services who have contact with children has increased from 106 to 124 when compared to the previous quarter, however compared to the same quarter last year it has dropped by 27, this may be due to more robust recording.
- The number of children who had contact with a service user during quarter 1 of 2014/15 was 188, compared to 160 in the previous quarter.

Please note that this number cannot be added together to make a total of the number of service users who have contact children as there are service users who have children living with them as well as contact with children not living with them.

- The number of service users who reported living with young people aged under 16 in quarter 1 of 2014/15 has dropped slightly to 53 when comparing the previous quarter of 69.
- The number of Service Users who have contact with young people has risen when comparing the previous quarter from 68 to 71 in quarter 1 of 2014/15. During the same quarter in 2013/14 there were 105 who had contact with children living elsewhere.

- There were 188 young people who had contact with service users during quarter 1 of 2014/15. Of this number 79 (42%) were 8 years old or younger and 109 (58%) were between the ages of 9 and 15 years old.

- The street with the highest number of service users is Guildry House, Hall Place in Elgin (IV30 1JP). This is homeless accommodation managed by SACRO. 10 Service Users reported living in this postcode area.
- There are 6 Service Users who reported living in Kingsmills, Elgin (IV30 1BX)
- 4 Service users living in, Priory Place, Elgin (IV30 1RW), Calcots Crescent, Elgin (IV30 6GL)
- The Royal Hotel, Tytler Street, Forres (IV36 1EL) also has 4 service users living there, this is also homeless accommodation.
