## **Service User Report Q1 2013/14**

**Author: Amanda Ware**  
**Documents Reference: 7/2013**  
**Last Updated: 18<sup>th</sup> July 2013**

## 1.1 Introduction

This report will cover fiscal years 2012/13 and 2013/14. It will begin by analysing the data that has been collated by Moray Alcohol and Drug Partnership (MADP) services who, along with the service users are using the Alcohol and Drug Outcome Star to measure the service user's progress through their personal recovery journey.

It will also detail the number of people being referred into the MADP Services and those accessing the MADP services during fiscal years 2012/13 and 2013/14. This will include a break down and analysis of service user's ethnicity, age, the type of substance they misuse as well as the numbers of service users who have contact with children.

## 1.2 Method

The data for this report has been collated either directly from MADP Services or from the Service Reporting Sheet that is completed by the Service User and Assessor at Assessment or at Review with the key worker.

The following MADP services have contributed to this report:

- Moray Drug and Alcohol Team – NHS
- Moray Social Work Addiction Team
- Studio 8 (Turning Point Scotland)

Offending	5	1	22	2
Accommodation	11	2	10	7
Money	12	1	8	9
Family & Relationships	13	2	6	9

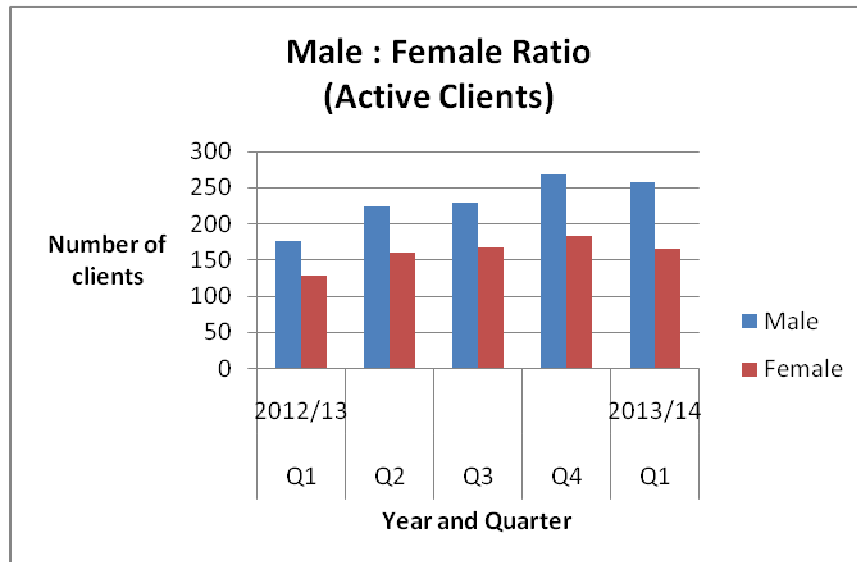

It should be noted that no change required means that the service user has scored 10 on that point of the Alcohol and Drug Outcome Star showing that they can manage without help from the service.

- During quarter 1 of 2013/14 30 people were reviewed as having 2 or more alcohol and drug stars.
- Community and Social networks were the areas where most service users had made progress during quarter1.
- Family and Relationships and money were the two areas where the highest number of service users had declined.
- 46.6% of clients reviewed had made progress with their alcohol use, while 23.3% had made progress with their drug use.

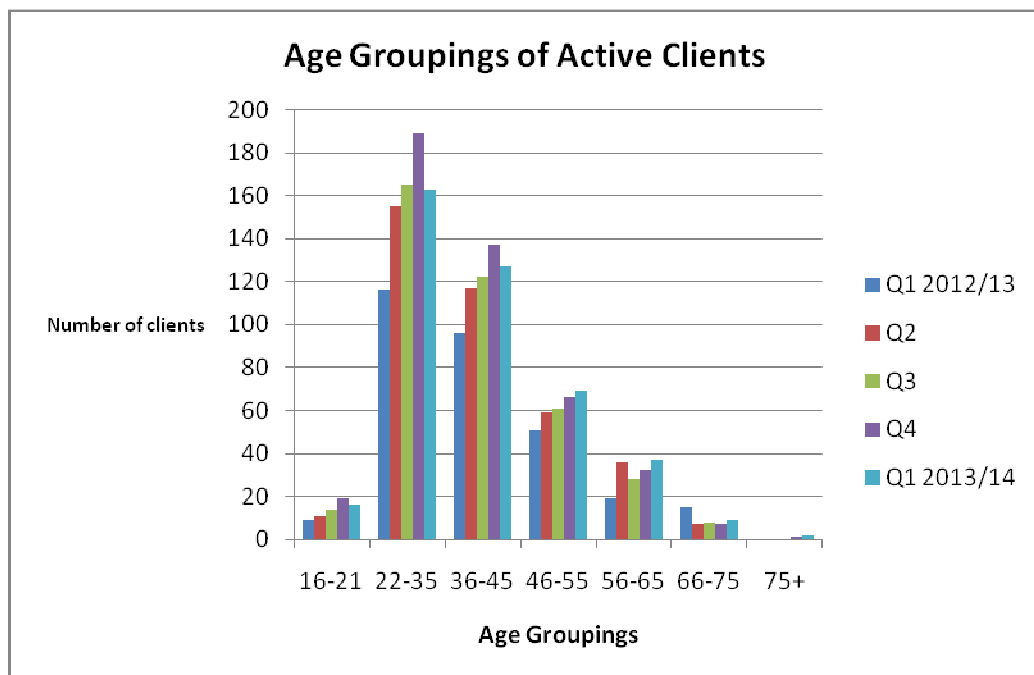

## 2.2 Service User Data

	Q1	Q2	Q3	Q4	Q1
Number of Clients Assessed in MADP Services	78	93	69	88	66
Number of clients closed to MADP Services	12	35	26	38	51
Number of active clients engaged in MADP Services	306	385	398	451	423

- There has been a drop in the number of clients being assessed in quarter 1 compared with the previous quarters.
- The number of clients who were closed to MADP services in quarter 1 was at its highest since formal recording began. This may be due to better recording mechanisms now being in place.
- There was a peak in the number of active clients in quarter 4 of 2012/13 however the number has dropped back down to 423 which is still consistently higher than the same quarter last year.

- Throughout the previous year and into the new fiscal year the ratio of males to females in MADP services has remained consistent with roughly 60% males to 40% females.

- The age bracket with the highest number of service users is 22-35; this has remained rather static throughout the past year.

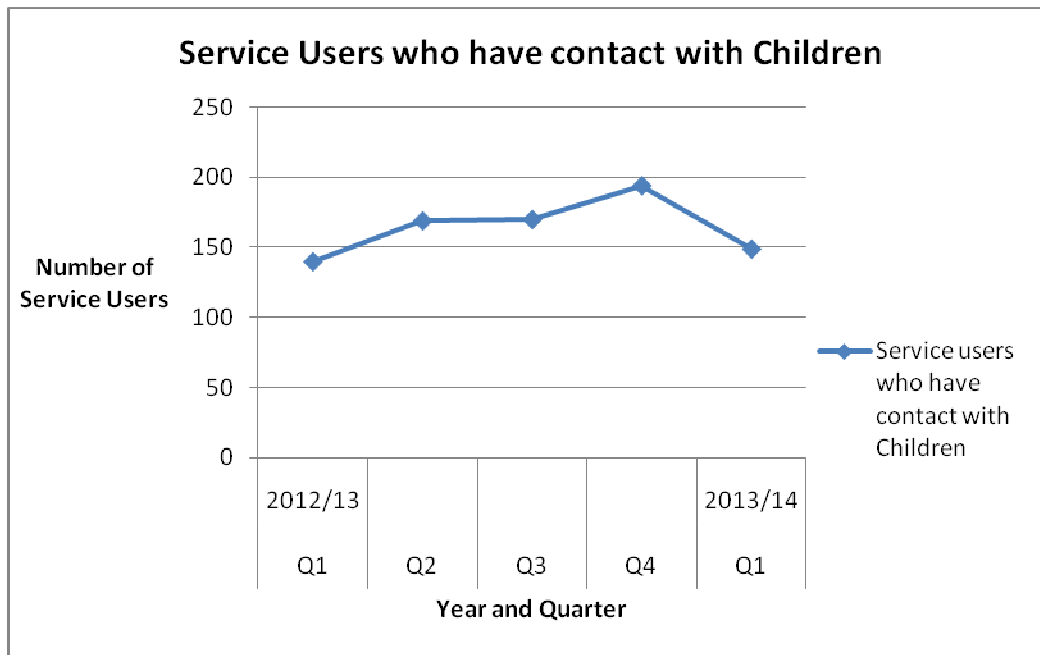

- There is a major cluster around the 22-45 age brackets of those engaged in MADP Services.
- During quarter 1 there has been more people aged between 46 and 65 than in any of the previous quarters.
- There are two people aged over 75 engaging with MADP services in quarter 1.

	Q1	Q2	Q3	Q4	Q1
Alcohol	138	194	194	214	196
Drugs	143	160	173	195	179
Both	25	31	31	42	48

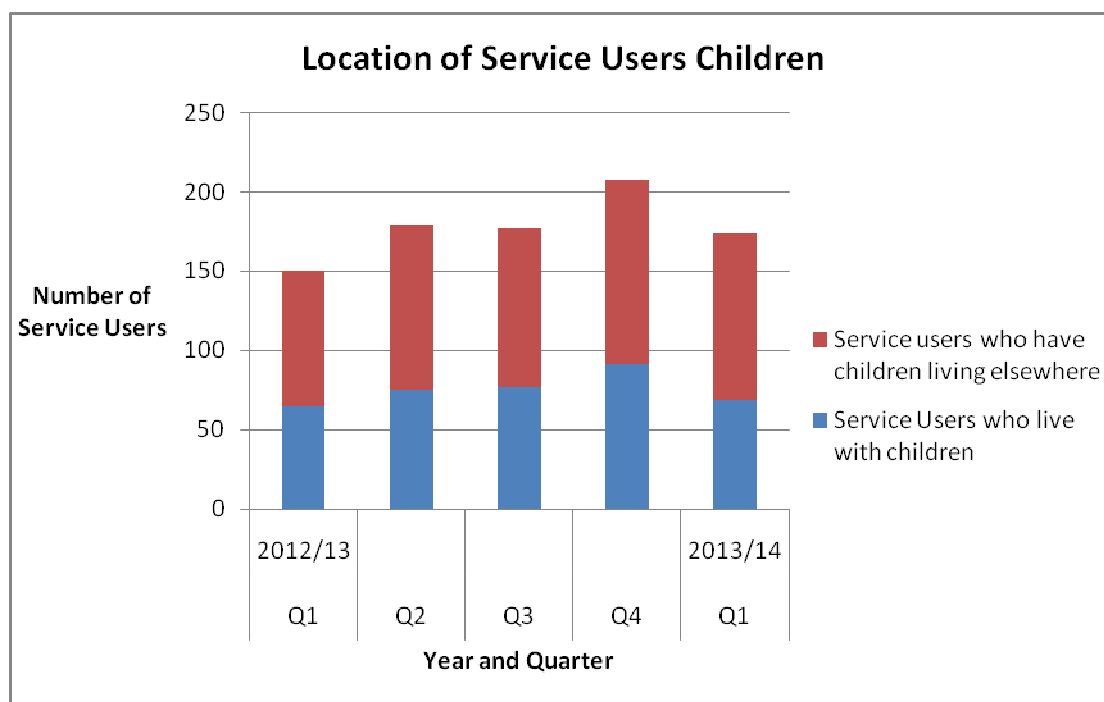

- The number of Service Users seeking help for Alcohol misuse has the highest proportion with 46.3% in quarter 1 this is not too inconsistent when compared to the previous quarters.
- Those seeking help with drug misuse account for 42.3% of all clients in quarter 1; this has dropped very slightly compared to previous quarters.
- The percentage of those who are engaged in MADP services due to an issue with both drug and alcohol misuse has risen by two percentage points to 11.4% of all service users.

	Q1	Q2	Q3	Q4	Q1
White Scottish	266	331	345	391	366
White British	35	46	46	47	44
White Other	5	7	5	9	11
White Irish	0	0	1	0	0
Black Other	0	0	1	1	1
Caribbean	0	1	1	1	0
Asian Other	0	0	0	2	2

- The vast majority of service users are White Scottish, this ethnicity accounts for 86.5% of all service users in quarter 1, again this is not a dissimilar proportion when compared to previous quarters.
- The number of White British people in MADP services has dropped slightly however the number of White other has risen by 2, the majority of the White other service users are Eastern European.
- There is 1 Black other and 2 Asian other.

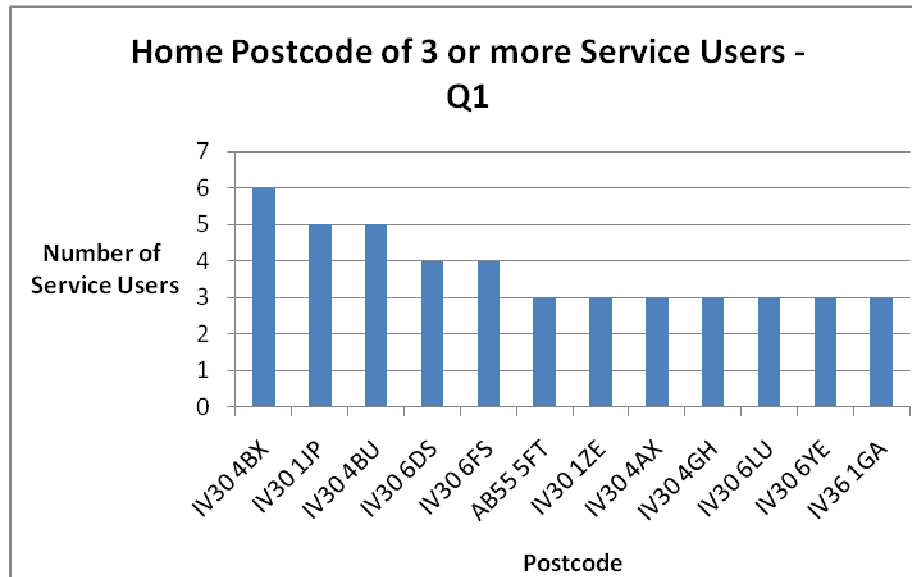

- During quarter 1 the number of people in services who have contact with children has dropped to 149, which is not too far off the number in quarter 1 of 2012 which was 140.
- There were 265 people under 16 who lived with or had contact with adults who were engaged in MADP Services during quarter 1.

Please note that this number cannot be added together to make a total of the number of service users who have contact children as there are service users who have children living with them as well as contact with children not living with them.

- The number of service users who live with young people aged under 16 has dropped slightly in quarter 1 to 69, this is a drop from 91 compared to quarter 4, but a rise from 65 compared to the same quarter last year.

- There are 106 young people who live with a service user.
- The number of Service Users who have contact with young people has also dropped from 117 to 105 between quarter 4 and quarter 1. However it has risen from 85 when compared with the same quarter last year.
- There are 159 young people who had contact with a Service User in quarter1.

- The street with the highest number of service users is Kingsmills, Elgin with IV304BX and IV30 4BU both relating to this street. There are 11 service users living in these postcodes.
- There are two postcodes that have 3 or more service users outside of Elgin are AB55 5FT which relate s to Nelson Court, Keith and IV36 1GA which is Bynack Place, Forres.
- IV30 1JP relates to Guildry House in Hall Place, Elgin which is homeless supported accommodation managed by Sacro.
- There are less postcodes with three or more service users living within it in quarter 1 compared to quarter 4 of last year.
