Service User Report Quarter 2 2013/14

Author: Amanda Ware

Documents Reference: 10/2013

Last Updated: 14th October 2013

1.1 Introduction

This report will cover fiscal years 2012/13 and 2013/14, specifically looking at quarter 2 of 2013/14. It will begin by analysing the data that has been collated by Moray Alcohol and Drug Partnership (MADP) services who, along with the service users are using the Alcohol and Drug Outcome Star to measure the service user's progress through their personal recovery journey.

It will also detail the number of people being referred into the MADP Services and those accessing the MADP services during fiscal years 2012/13 and 2013/14. This will include a break down and analysis of service user's ethnicity, age, the type of substance they misuse as well as the numbers of service users who have contact with children.

1.2 Method

The data for this report has been collated either directly from MADP Services or from the Service Reporting Sheet that is completed by the Service User and Assessor at Assessment or at Review with the key worker.

The following MADP services have contributed to this report:

- Moray Drug and Alcohol Team – NHS
- Moray Social Work Addiction Team
- Studio 8 (Turning Point Scotland)

It should be noted that no change required means that the service user has scored 10 on that point of the Alcohol and Drug Outcome Star showing that they can manage without help from the service.

- During quarter 2 of 2013/14 33 people were reviewed as having 2 or more alcohol and drug stars.

- Emotional Health and Physical Health were the areas where most service users had made progress during quarter 2. This is not too dissimilar to quarter 2 of 2012/13.
- Community was the area where the highest number of service users had declined during this reporting quarter, during quarter 2 of 2012, meaningful use of time had the highest number of declines, whilst Community had the second highest number.
- 61% of clients reviewed had made progress with their alcohol use, while 30% had made progress with their drug use during quarter 2 of 2013/14.
- The percentage for alcohol progress is almost the same as quarter of 2012/13, but is higher than the previous quarter, which was 47%.
- The percentage for drug progress is much higher than quarter 2 of 2012/13, however there was a high proportion of service users reporting that they did not require help with drug misuse issues in this quarter. There has been a rise in the percentage of people making progress with regards to drug misuse when comparing quarter 2 with quarter 1 of 2013/14.
