## **Service User Report Quarter 4 2014/15**

**Author: Amanda Ware**

**Documents Reference: 8/15/2578**

**Last Updated: 29/04/2015**

## 1.1 Introduction

This report will cover fiscal years 203/14 and 2014/15, specifically looking at quarter 4 of 2014/15. It will begin by analysing the data that has been collated by Moray Alcohol and Drug Partnership (MADP) services who, along with the service users are using the Alcohol and Drug Outcome Star to measure the service user's progress through their personal recovery journey.

It will also detail the number of people being referred into the MADP Services and those accessing the MADP services during fiscal years 2013/14 and 2014/15. This will include a break down and analysis of service user's ethnicity, age, the type of substance they misuse as well as the numbers of service users who have contact with children.

## 1.2 Method

The data for this report has been collated either directly from MADP Services or from the Service Reporting Sheet that is completed by the Service User and Assessor at Assessment or at Review with the key worker.

The following MADP services have contributed to this report:

- Moray Drug and Alcohol Team – NHS
- Moray Social Work Addiction Team
- Studio 8 (Turning Point Scotland)
- MADP Support Team

## 2.1 Alcohol Outcomes Star Data

Q4 2013/14	Progress	No Change	No Change Required	Decline

Emotional Health	7	6	1	9
Offending	7	1	11	4
Accommodation	7	2	9	5
Money	9	4	3	6
Family & Relationships	2	5	11	5

Q4 2014/15	Progress	No Change	No Change Required	Decline
Alcohol Use	7	5	8	6
Physical Health	9	5	4	8
Meaningful use of Time	8	10	1	7
Community	11	6	3	6
Drug Use	5	2	13	6
Emotional Health	9	10	0	7
Offending	6	1	15	4
Accommodation	6	1	15	4
Money	10	4	7	5
Family & Relationships	9	8	6	3

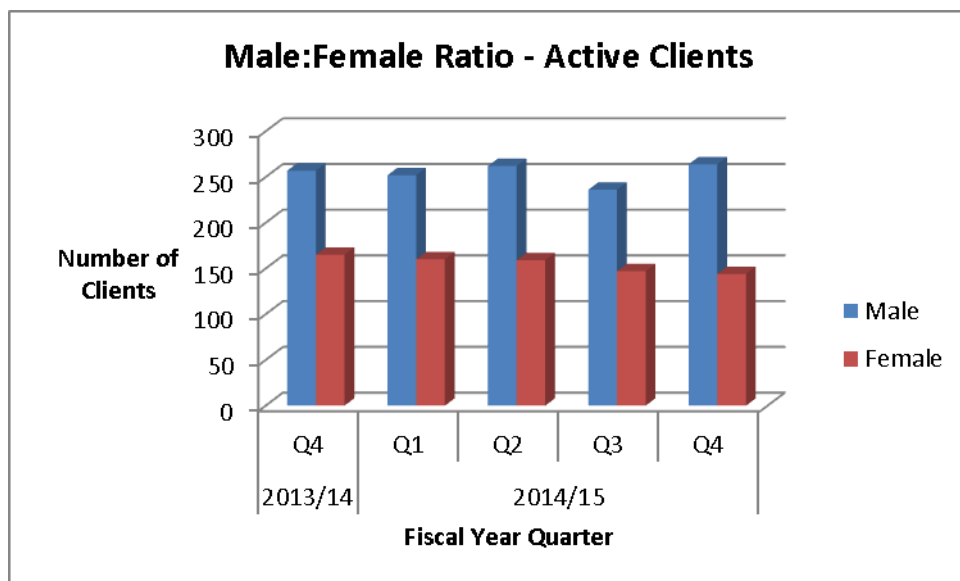

It should be noted that no change required means that the service user has scored 10 on that point of the Alcohol and Drug Outcome Star showing that they can manage without help from the service.

- During quarter 4 of 2014/15 26 people were reviewed as having 2 or more Alcohol and Drug Outcomes Stars.
- Community, Physical Health and Family and Relationships were the areas where most service users had made progress during quarter 4.
- 29.9% of clients reviewed had made progress with their alcohol use during the reporting quarter while 30.8% did not require any help with their alcohol use.
- 19.2% had made progress with their drug use during quarter 4 of 2014/15 while 50% did not require any help with Drug misuse.
- The area in which service user reported the largest decline was in Physical Health with 30.8% reporting a decline in this area of their life.
- Offending and Accommodation were the areas in which the highest number of service users reported needing no help.

## 2.2 Service User Data

	2013/14	2014/15			
	Q4	Q1	Q2	Q3	
Number of Clients Assessed in MADP Services	83	82	74	73	68
Number of clients closed to MADP Services	68	35	90	20	20
Number of active clients engaged in MADP Services	422	412	421	383	408

- There has been a decrease of 5 in the number of clients being assessed in quarter 4 compared with the previous quarter, and a decrease of 15 when compared with the same quarter of 2013/14.
- The number of clients who were closed to MADP services in quarter 4 has remained the same when compared to the previous quarter. Although when compared to Q4 of 2013/14 it has dropped by 48.
- The number of active clients has increased when compared to the previous quarter and declined when compared to the same quarter in 2013/14.

- In quarter 4 64.7% (264) of active MADP clients are males with 35.3% (144) being female.

- Over the past year there has been a steady increase in the number of males and a decline in the number of females accessing MADP Services.

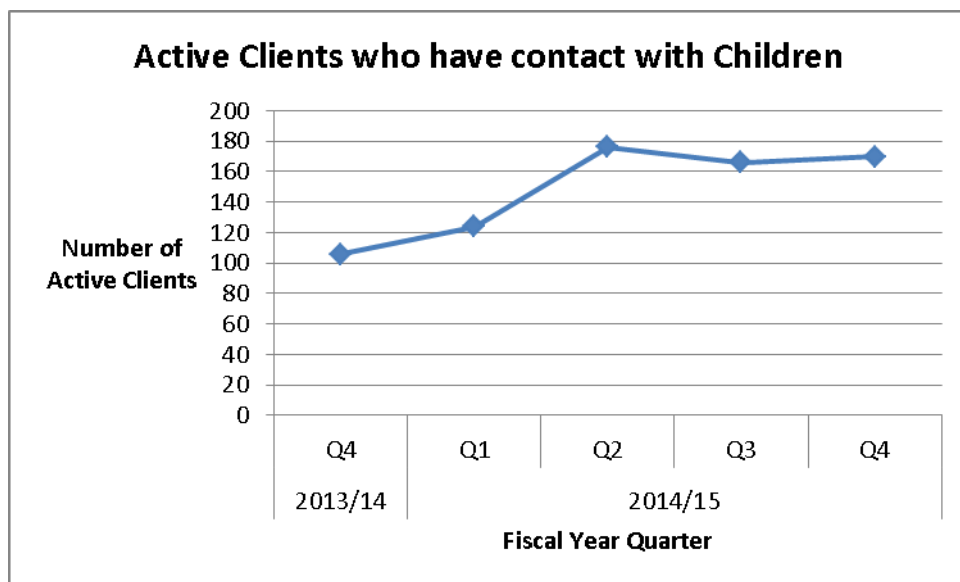

- The age bracket with the highest number of service users is 22-35; this has remained consistent throughout the past year and a half.
- There is a major cluster around the 22-45 age brackets of those engaged in MADP services, with 65.9% of all clients falling into this age grouping.
- There were 2 people aged over 75 engaging with MADP services in quarter 4.

	2013/14	2014/15			
	Q4	Q1	Q2	Q3	Q4
Alcohol	166	178	179	162	183
Drugs	244	210	211	198	198
Both	12	24	31	23	27

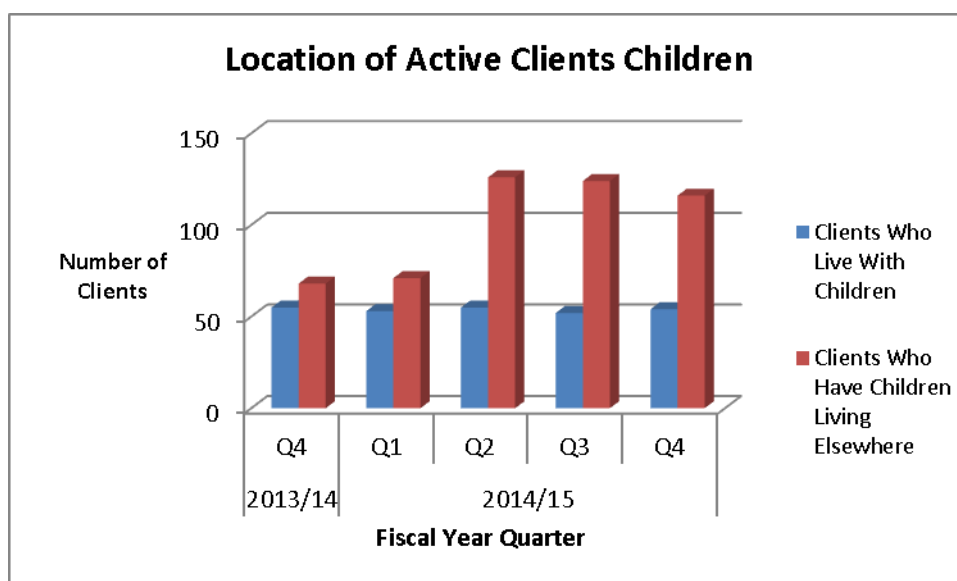

- The number of Service Users seeking help for Alcohol misuse has increased by 21 when compared to the previous quarter; it has also increased when compared to quarter 4 of 2013/14. 44.9% of all Service Users were accessing services due to an issue with alcohol.
- Those seeking help with drug misuse account for 48.5% of all clients in quarter 4; the number of service users seeking help for Drug misuse has remained the same during quarter 4 of 2014/15 compared to the previous quarter; although it has decreased when compared to the same quarter of 2013/14.
- The percentage of those who are engaged in MADP services due to an issue with both drug and alcohol misuse has decreased this quarter to 6.6% of all service users. The number of people seeking help for both drug and alcohol issues have increased when and the same quarter in 2013/14.

	2013/14	2014/15			
	Q4	Q1	Q2	Q3	Q4
White Scottish	354	344	359	337	356
White British	54	60	55	40	45
White Other	13	7	7	6	6
White Irish	0	0	0	0	1
Black Other	1	1	0	0	0
Caribbean	0	0	0	0	0
Asian Other	0	0	0	0	0

- The vast majority of service users are White Scottish, this ethnicity accounts for 87.3% of all service users in quarter 4 of 2014/15.
- The number of White British people in MADP services has increased when compared to quarter 3. This ethnicity accounts for 11% of all service users during quarter 4 of 2014/15.
- The number of people who identified themselves as White Other has remained the same when comparing this reporting quarter with the previous quarter, the majority of the White Other service users are Eastern European.

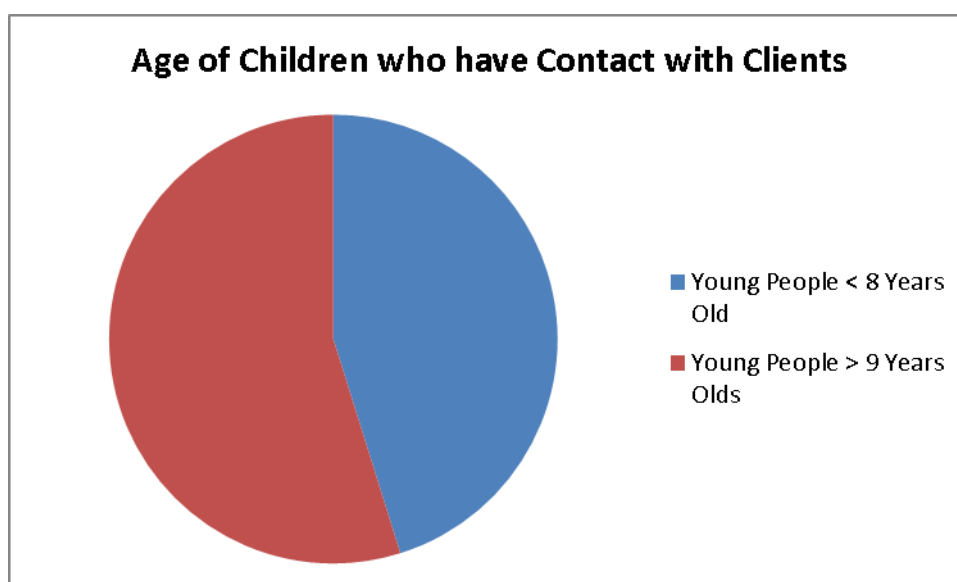

- During quarter 4 of 2014/15 the number of people in services who have contact with children has increased slightly from 166 in the previous quarter to 170 in quarter 4 of 2014/15.
- When comparing quarter 4 of 2013/14 with this reporting quarter there has been an increase of 64 Service users who have contact with children.
- The number of children who had contact with a service user during quarter 4 of 2014/15 increased from 160 in quarter 4 of 2013/14 to 248 in the reporting quarter.

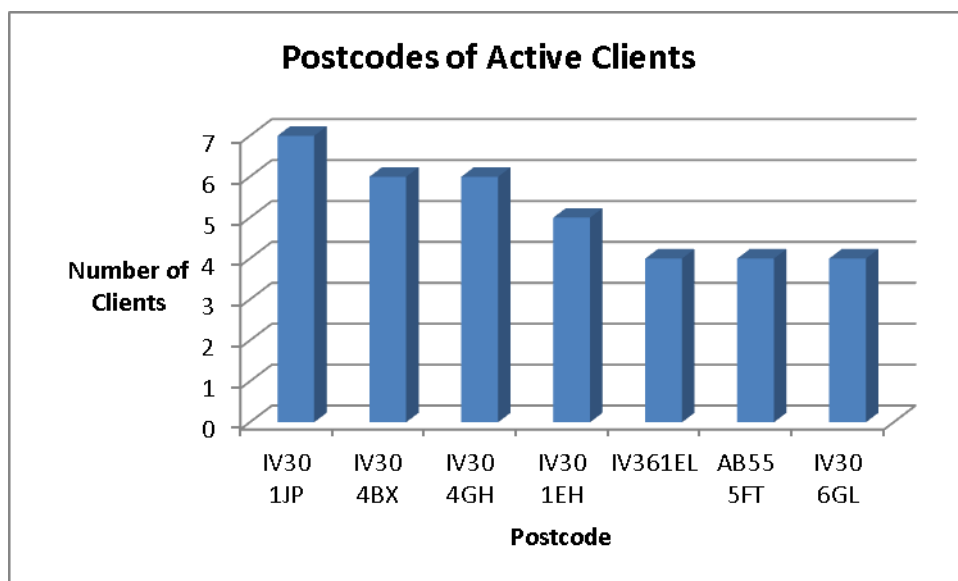

Please note that this number cannot be added together to make a total of the number of service users who have contact children as there are service users who have children living with them as well as contact with children not living with them.

- The number of service users who reported living with young people aged under 16 in quarter 4 of 2014/15 has risen slightly from 52 to 54 when comparing the previous quarter.
- The number of service users who have contact with young people has declined slightly when comparing the previous quarter, from 124 in quarter 3 of to 116 in quarter 4 of 2014/15. During the same quarter in 2013/14 there were 68 who had contact with children living elsewhere.

- There were 248 young people who had contact with service users during quarter 2 of 2014/15. Of this number 112 (45.2%) were 8 years old or younger and 136 (54.8%) were between the ages of 9 and 15 years old.

- The street with the highest number of service users is Guildry House, Hall Place in Elgin (IV30 1JP). This is homeless accommodation managed by SACRO. 7 Service Users reported living in this postcode area, an increase of 1 compared to the previous quarter.
- There were 6 Service Users who reported living in Kingsmills, Elgin (IV30 1BX), and Earnet Hamilton Court, Elgin (IV30 4GH)
- There were 5 service users living in North Place, Elgin (IV30 1EH) Nelson Court, Keith (AB55 5FT) and Tytler Street, Forres (IV36 1EL). The Royal Hotel, Tytler Street, Forres is homeless accommodation.
