1.1 Introduction

This report will cover fiscal years 2013/14 and 2014/15, specifically looking at quarter 2 of 2014/15. It will begin by analysing the data that has been collated by Moray Alcohol and Drug Partnership (MADP) services who, along with the service users are using the Alcohol and Drug Outcome Star to measure the service user's progress through their personal recovery journey.

It will also detail the number of people being referred into the MADP Services and those accessing the MADP services during fiscal years 2013/14 and 2014/15. This will include a break down and analysis of service user's ethnicity, age, the type of substance they misuse as well as the numbers of service users who have contact with children.

1.2 Method

The data for this report has been collated either directly from MADP Services or from the Service Reporting Sheet that is completed by the Service User and Assessor at Assessment or at Review with the key worker.

The following MADP services have contributed to this report:

- Moray Drug and Alcohol Team – NHS
- Moray Social Work Addiction Team
- Studio 8 (Turning Point Scotland)
